ANNOUNCES CONTINUOUS COURSES

SURGERY—Two Weeks Intensive Course in Surgical Technique starting June 12, June 26, and every two weeks throughout the year. One Week Course in Colon and Rectal Surgery starts October 23.
MEDICINE—Two Weeks Personal Course in Electrocardiography & Heart Disease starting August 7. Two Weeks course Internal Medicine starting October 16.
GYNECOLOGY—Two Weeks Intensive Course starting October 2. One Week Personal course Vaginal Approach to Pelvic Surgery starting October 23.
OBSTETRICS — Two Weeks Intensive Course starting June 26.
ANESTHESIA—Two Weeks Course Regional, Intravenous and Caudal Anesthesia.
GASTROSCOPY—Personal Course starts October 16.
OTOLARYNGOLOGY — Two Weeks Intensive Course starts October 2.
ROENTGENOLOGY — Courses X-ray Interpretation, Fluoroscopy, Deep X-ray Therapy every week.
UROLOGY—Two Weeks Course and One Month Course available every two weeks.
CYSTOSCOPY—Ten Day Practical Course every two weeks.
GENERAL, INTENSIVE AND SPECIAL COURSES IN ALL BRANCHES OF MEDICINE, SURGERY AND THE SPECIALTIES
Teaching Faculty
Attending Staff of Cook County Hospital
Address:
Registrar, 427 So. Honore St., Chicago 12, Illinois

Effective
Convenient
Economical

THE effectiveness of Mercurochrome has been demonstrated by more than twenty years of extensive clinical use. For professional convenience Mercurochrome is supplied in four forms—Aqueous Solution in Applicator Bottles for the treatment of minor wounds, Surgical Solution for preoperative skin disinfection, Tablets and Powder from which solutions of any desired concentration may readily be prepared.

Mercurochrome

(H. W. & D. brand of merbromin, dibromoxymercurifluorescein-sodium)

is economical because stock solutions may be dispensed quickly and at low cost. Stock solutions keep indefinitely.

Mercurochrome is antiseptic and relatively non-irritating and non-toxic in wounds.

Complete literature will be furnished on request.

THE STOKES SANITARIUM 923 Cherokee Road, Louisville, Kentucky

Our **ALCOHOLIC** treatment destroys the craving, restores the appetite and sleep, and rebuilds the physical and nervous condition of the patient. Liquors withdrawn gradually; no limit on the amount necessary to prevent or relieve delirium.

MENTAL patients have every comfort that their home affords.

The **DRUG** treatment is one of gradual Reduction. It relieves the constipation, restores the appetite and sleep; withdrawal pains are absent. No Hyoscine or rapid withdrawal methods used unless patient desires same.

NERVOUS patients are accepted by us for observation and diagnosis as well as treatment.

E. W. STOKES, Medical Director, Established 1904.

Telephone—Highland 2101

BRAWNER'S SANITARIUM

Established 1910

SMYRNA, GEORGIA

(Suburb of Atlanta)

For Nervous and Mental Disorders

Drug and Alcohol Addiction.

Approved diagnostic and therapeutic methods.

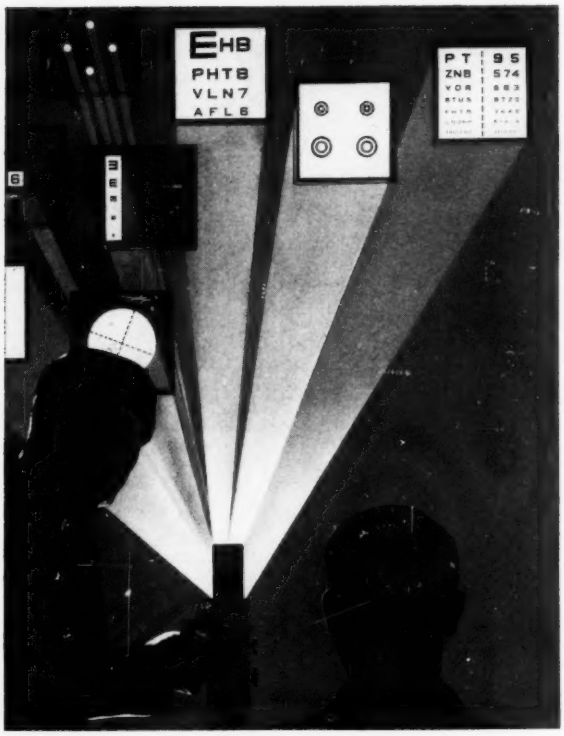
Metrazol and Electro-shock in selected cases.

Special Department for General Invalids and Senile Cases at Monthly Rates

JAMES N. BRAWNER, M.D., Medical Director

ALBERT F. BRAWNER, M.D., Department for Men

JAMES N. BRAWNER, JR., M.D., Department for Women.



VARIETY

WITH FINGER-TIP CONTROL

You control every step of the subjective eye examination when you use the AO Project-O-Chart. From beside the patient, you project an almost unlimited variety of test characters (using only one screen). You eliminate patient memorizing or guessing—you gather complete acuity and refractive data.

The AO Project-O-Chart is portable, simple to operate, economical and has no complicated mechanical parts.

All AO Project-O-Charts now being manufactured are scheduled for the Armed Forces. As soon as military demands are met, AO Project-O-Charts will be available.

AO PROJECT-O-CHART

American Optical COMPANY
